if on time:

Flight is on time

From : airport, gate, terminal (?)

To : airport

At : time

Airline:

Flight number:

if delayed

The flight, (flight number), from X-airport to y-airport on Z-arline, has been DELAYED.

The flight will now be at time: (new time), from gate number: #.

if cancelled:

This flight is CANCELLED, please consult airline: (airline) to rebook your flight.

Or you can attempt to get a seat on one of these flights:

table of flights that depart from and arrive to the same airports at times at or after the original flight (same day)

PLEASE CONFIRM THAT YOU ENTERED THE CORRECT INFO.

(If they didn't search by flight num, also display:)

Here's a list of similar flights, is this what you meant.

ideally the search bars also contain drop down menus so the flight not found page may be irrelevant.
